

BROUGHT TO YOU BY LUCRATIVE RACING TRUST

A background image of a horse race. Two jockeys are prominently featured in the foreground, leaning forward on their horses. The jockey on the left wears a purple and red silks with a red helmet. The jockey on the right wears white silks with black stars and a blue helmet. They are racing on a grassy track. The image is slightly faded to allow the text to stand out.

FIRST CLASS FANCIES

2017 / 18 SEASON

INTRODUCTION

Welcome to the First Class Fancies betting system, recently updated for the 2017/18 season.

This bet finding strategy has performed excellently throughout 2015 and 2016, bagging winners at up to 100/1 throughout the major meetings and festivals while still managing to maintain an impressive strike rate.

With a conservative volume of qualifiers centered around festivals and weekend racing, the system only requires a small time investment, and since there are no rules relating to pricing, the system can be run through whenever it fits our schedule.

I'm confident this will prove to be a worthwhile addition to your betting portfolio.

THE SYSTEM

First Class Fancies focuses specifically on class 1 racing and runs throughout both the flat and jumps seasons. There are generally a greater volume of bets during the summer months where the majority of racing festivals take place.

As with any system, we have a set of rules to follow in order to find our selections. I've listed the rule-set below, and in the following pages will show the easiest way to apply them:

System Rules

- 1. Class 1 races only (including Ireland)**
- 2. Horse has won a class 1 race in the last 120 days**
- 3. Horse has winning strike rate of 25% or greater**
- 4. Horse is racing within 2 grades of it's previous race**
- 5. Horse originates from Britain, Ireland or USA**

We require a website (or newspaper) that provides each days racing cards. The Racing Post website has been used in this example:

<http://racingpost.com/cards>

SELECTION PROCESS

Rule 1. Class 1 races only (including Ireland)

This rule should be applied first, as it immediately omits a large portion of races. The majority of class 1 races are ran during racing festivals, and weekly on a Saturday. The walkthrough below is during Cheltenham festival 2017.

On the cards page, click on any meeting to find class 1 races:

	CHEL TENHAM	1:30 - 5:30	Jumps	7 races
GOING Old course - GOOD TO SOFT (Good in places); Cross-Country course - GOOD (Good to soft in places) (Cloudy)				
1:30	Neptune Investment Management Novices' Hurdle (Grade 1) (Registered As The Baring Bingham) Cl1 (4yo+) 2m5f26y			
2:10	RSA Novices' Chase (Grade 1) Cl1 (5yo+) 3m80y			
2:50	Coral Cup Handicap Hurdle (Grade 3) Cl1 (4yo+) 2m5f26y			
3:30	<u>Betway Queen Mother Champion Chase (Grade 1)</u> Cl1 (5yo+) 1m7f199y			
4:10	Glenfarclas Chase (A Cross Country Chase) Cl2 (5yo+) 3m6f37y			

After the race name, the class of the race is shown in the format 'Cl' followed by a number; we are looking for 'Cl1' races.

Clicking on any 'Cl1' race will bring up the list of runners.

Rule 2. Horse has won a class 1 race in the last 120 days

This rule ensures our qualifiers are capable of winning races of a higher class, and have relatively recent form to prove it.

In the list of runners, click on a horse's name to bring up more details, and scroll down to the 'form' section:

18Sep12	Gelded notification									

This is the recent form for '**Willoughby Court**' in the 13:30 Cheltenham, on the 15th March. As we can see it's previous race was less than 120 days ago, and the position column shows it won.

The class is shown in the course column, circled in red. Since this race was 'C1' or class one, Willoughby Court passes this rule.

Rule 3. Horse has winning strike rate of 25% or greater

Fairly self-explanatory, this rule is designed to weed out runners that don't win on a consistent basis. To find this info, look at the 'Race Record' section of the horse details page:

Form

Entries

Stats

Quotes

Pedigree

Race Record

Jumps placings: 3/115-211

LIFETIME RECORD	RUNS	WINS	2NDS	3RDS	WINNINGS	EARNINGS
NHF	4	2	0	1	£3,574	£4,877
Hurdle	3	2	1	0	£23,506	£24,174
Rules Races	7	4	1	1	£27,080	£29,052

We can use the 'Rules Races' info to work out the horses winning strike rate.

In this case, Willoughby Court has had 4 wins from 7 runs. To get our strike rate, divide the number of wins by the number of runs:

$$4 / 7 = 0.5714$$

To view as a percentage, multiply by 100:

$$0.5714 \times 100 = \mathbf{57.14\%}$$

Rule 4. Horse is racing within 2 grades of it's previous race

This ensures our qualifiers are running in a race class they are fairly familiar with and can compete in.

Race grading runs from class 1 at the high end, to class 7 at the low end. At class one, the grading is split into the following from high to low:

Grade 1 (G1)

Grade 2 (G2)

Grade 3 (G3)

Listed (L)

From the card displayed in rule 1, we can see that today's race (1:30 Cheltenham) is **Class 1: Grade 1**. To qualify, the grade of our previous race must have been one of the following:

Class 1, Grade 1 - same grade

Class 1, Grade 2 - 1 grade lower

Class 1, Grade 3 - 2 grades lower

We can find the grade of our horses previous race on the horse details page, again in the form section:

As shown in the highlighted area, the race class is displayed directly after the course name. Following that is the type of race; in this case our horses previous race was a Novices Hurdle, denoted by 'NvH', which we can ignore.

For class 1 races, further grading information is displayed next. As we can see, there is an 'G2' displayed meaning that our previous race was **Grade 2**.

As this is 1 grade lower than today's race, Willoughby Court passes this rule.

Rule 5: Horse originates from Britain, Ireland or USA

Not an obvious angle, but a worthwhile addition to the selection process after looking at past data. This shows that after applying the previous set of rules, horses from countries such as France, Germany and Italy perform poorly.

Again, going back to the horse details page we can find the horses country of origin:

All matched bets are displayed in aggregated format. Select a Bet ID for a detailed breakdown (for Matched unsettled bets only). All times are UKT unless otherwise stated.

Reduction Factors (where applicable) are shown in red.

The Betfair Start Price was 16.5, and from a £25 stake I was returned a profit of £387.50.

RESULTS

Based on this set of rules, First Class Fancies has produced the following results since January 2015. The profit levels are based on betting at Betfair start price minus 5% commission.

Bets: 682

Win: 163

Strike Rate: 23.9%

Based on the above strike rate, and a longest recorded losing run of 16, a **100 point bankroll** is recommended.

Flat Staking

A worthwhile system should be able to produce a profit using flat stakes:

Points Profit: 368.58

Profit at £25 stakes: £9,214.45

Compound Staking

We can grow a conservative bankroll quickly by recalculating our stake each day. Simply divide our current bankroll by 100 e.g. £1,000 bankroll / 50 = £10 stake. This method is shown in the results history on the following pages.

Profit from £1,000 bankroll: £16,703.79

Annual rate of return: 664.15%

Date	Time	Course	Horse	BSP odds	Stake	Position	P/L	£1000 bankroll
